

CHRIS CASTLE

“Chris Castle sings his unique songs of depth and beauty in a voice well-textured by life’s experiences”

- **TOMMY RAMONE**

Chris Castle builds the kind of songs that America grew up with. His music pays homage to the elements found throughout the past century of American music, drawing from classic Country, early Rock & Roll, Bluegrass, Folk, Blues, and traditional Pop. Castle’s ability to seamlessly blend these genres is a testament to his understanding of the tapestry of American music.

It's no surprise then, that he has found himself at home alongside some of the godfathers of modern Americana music. Chris Castle has shared stages and studios with legendary artists like **Garth Hudson** (the Band), **Chris Hillman** (the Byrds), **Tommy Ramone** (the Ramones), and **Larry Campbell** (Bob Dylan, Willie Nelson). His 2012 release, *Last Bird Home*, was recorded at the storied Levon Helm Studios in Woodstock, NY and broke the top 10 on multiple roots radio charts.

Castle is currently collaborating on a new album with three-time Grammy winning engineer Justin Guip (the Black Crowes, Hot Tuna) and producer Larry Campbell, which is set to release in 2024.
